

# TigerTurf Football 22/170 PP

## Product Data Specification

<b>Product Name:</b>	<b>Football 22/170 PP</b>
<b>Main Application:</b>	<b>Football</b>
<b>Colours:</b>	<b>Forest, Olive, Brick, Blue, Grey</b>

**Product Description:** A medium pile (22mm above the backing), sand filled, fibrillated football surface.

It is our standard yarn that has been New Zealand's number one since synthetic grass was introduced. It is a versatile yarn that is suitable for football of all types. The yarn used in this product is equal in performance to any fibrillated yarn in Australasia. Available in numerous colour combinations to suit your requirements including Olive, Brick, Forest, Blue and Grey. Also featuring a uniquely formulated latex backing, designed to last in continuous wet conditions, and provide greater seam strength when used in conjunction with approved adhesives. Football 22/170 PP is UV stabilised to meet the extremes that the New Zealand and Australian climate presents. Football 22/170 PP is warranted against UV breakdown for five (5) years.

**Installation Advice:** This product is to be directly laid onto a stabilised sub-base such as TigerBond, Asphalt or Concrete. It is also possible to lay the surface onto a Compacted Metal base although it is important to note that this is not the ideal sub-base. All seams should be glued with an appropriate adhesive. Carpet to be infilled with sand, as specified above and then groomed before play. For further information on the installation of this surface please contact TigerTurf.

**Maintenance Advice:** This product will perform to its optimum and last longer with regular maintenance.

**Warranty:** TigerTurf offer a five year warranty on this product, which is available upon request.
