

IAAF Approved Running Tracks

We're proud that the world's greatest athletes train and compete on our track systems. Time-tested performance and durability make our premier product a natural for international training and competition.

We offer **1) High performance 2) Durability 3) Cushioning 4) Cost-efficiency**

Our popular and economical track systems combine performance and **shock absorbency** with a **long life span**. Perfect for entry-level, our brand of latex systems meet your performance and budgetary requirements. If your existing track simply needs a new surface, we have the knowledge and the products to add years of life to it.

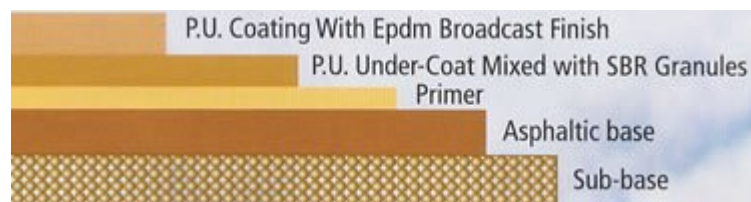

Olympic Venture offers outdoor sports surfaces for athletic tracks, playgrounds, tennis courts and multi-purpose use. Our top class athletic systems are **IAAF (International Association of Athletics Federations)** certified. Our range of products include

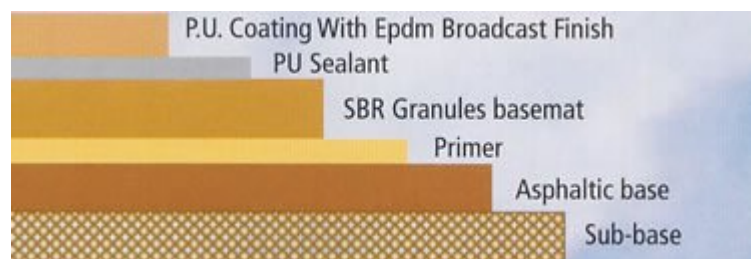

- High performance, impermeable, full polyurethane, three-layer athletic track system. In-situ applied with a granular coloured EPDM finish
- Impermeable sandwich system for athletic tracks and field sports
- Permeable, multi purpose outdoor sports system. In-situ applied, single layer, seamless surface.

Three Types of Track Surfaces

1) Full P.U. System

2) Sandwich System

3) Structural Spray System
